

# MATIC Duo

90/150 18 E

90/150 18 H

**TT**  
**TOOLTEMP**

Heat-transfer fluid	Water	Oil
Max. temperature	90 °C	150 °C
Heating capacity	<b>18 kW</b>	<b>6 kW</b>
Cooling capacity	<b>45 kW</b>	<b>10 kW</b>
	@ 90 °C	@ 150 °C
Cooling method	indirect (tube)	

## Robust Mechanical Design

- Tin-bronze submersible pump
- Calcification-free heat exchanger
- Fully immersed heaters made of high-temperature corrosion-free Nickel alloy (Incoloy 800)
- Maintenance-free flow meter
- Stainless-steel solid piping

## Features

- IRIS control system
- Pt100 temperature sensors in feed and return lines
- Heater control by solid-state relays
- Variable-speed pump with automatic eco-mode
- Time limited water refill
- Mould evacuation
- Leakstop operating mode

## Predictive Maintenance

- Continuous monitoring and self-diagnosis of the system
- Clear indication and description of errors
- Condition monitoring of the heat-transfer fluid (oil)
- *Condition monitoring of the pump (coming soon)*

## Safety

- Redundant, mechanical temperature limiter
- Pump motor monitored by the variable-frequency drive
- Configurable safeguard limits and corresponding reactions
- Configurable audible alarm

## Operation

- Industrial-grade, tiltable 7" IPS touch-screen
- Intuitive user interface for commissioning and operation
- Broad range of connectivity features (see page 3) including external temperature sensor
- Automatic actions for common operations
- User-defined time-resolved recipes

90/150 18 H

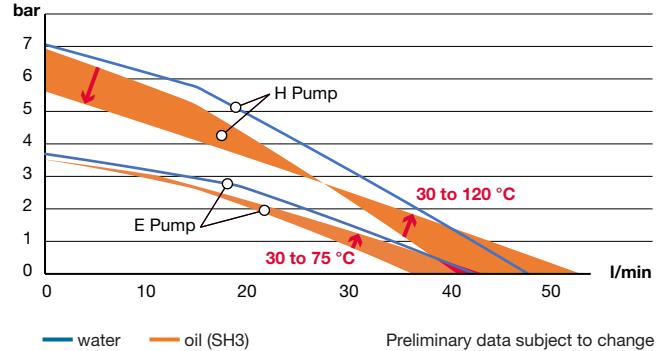

## Cooling capacity

## Technical specifications

- Cooling capacity
- Pump capacity

## Pump capacity

Preliminary data subject to change

## Technical specifications

<b>Maximum temperature</b>	
Water	90 °C
Oil	150 °C
<b>Heating capacity</b>	
Water	18 kW
Oil	6 kW
<b>Filling volume (heat-transfer fluid)</b>	
Maximum	20 litres
Minimum	16 litres
<b>Pump</b>	
<b>Pump type: MATIC Duo 90/150 18 E</b>	<b>E</b>
Maximum pressure	4.0 bar @ 50 Hz (standalone pump, operated with water)
Maximum flow rate	60 l/min @ 50 Hz (standalone pump, operated with water)
Motor rated power	0.75 kW
<b>Pump type: MATIC Duo 90/150 18 H</b>	<b>H</b>
Maximum pressure	7.0 bar @ 50 Hz (standalone pump, operated with water)
Maximum flow rate	60 l/min @ 50 Hz (standalone pump, operated with water)
Motor rated power	1.5 kW
<b>Control system</b>	
Temperature measurement	3-wire Pt-100 (F0.15 acc. IEC 60751), feed and return
Pump-pressure measurement	Piezoresistive pressure transmitter
Flow measurement (heat-transfer fluid)	0-60 l/min, paddle-wheel sensor with inductive pickup

# Controller IRIS

## Main Features

- Modular, extendable design
- Control voltage of 24 V DC
- Intuitive 7" touch-screen interface for seamless user interaction
- Three user levels with configurable password protection
- Automatic actions for common operations (e.g. mould evacuation, end of shift)
- User-defined time-resolved recipes
- Custom-engineered adaptive control algorithms
- *Flexible timer functionality (coming soon)*
- *Down- and upload of controller configuration (coming soon)*

## Data Availability

- Expressive list of messages (informations, warnings, errors)
- Visualisation of time-resolved recipes (preview and live)
- *Live visualisation of sensor data (coming soon)*
- *Downloadable data and error logs (coming soon)*

## Focus on Energy Efficiency

- Pump power on demand by full integration of variable-frequency drive in control logic
- Three pump-control modes to fit every demand
- Intelligent, coordinated heating and cooling
- *Dedicated energy-monitoring screen with resettable counters (coming soon)*

## Localisation

- Physical units, date format, and accessibility features freely configurable
- Languages: EN, DE, FR, IT, ES

## Features

- Digital intelligence
- Flexible connectivity
- Simple and intuitive operation
- Everything at a glance

## Interfaces and protocols

### ▪ EtherNet

OPC-UA (*coming soon*)  
REST API (HTTP) (*coming soon*)  
WLAN (*coming soon*)  
Remote UI (screen as on controller) (*coming soon*)

### ▪ USB

Firmware update  
*Download of error and data logs (coming soon)*

## Other interfaces require an extension module:

### ▪ I/O Module 1

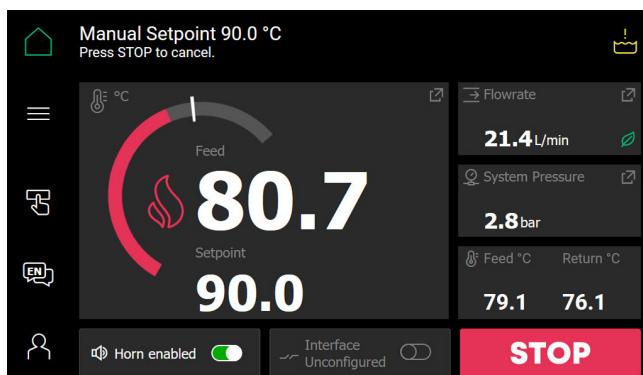

CAN, RS-485, RS-232, Current Loop

### ▪ I/O Module 2

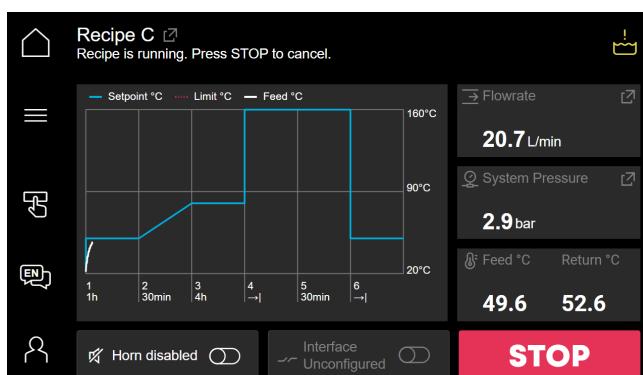

Profibus, Profinet, EtherNet/IP

### ▪ I/O Module 3 (*coming soon*)

*Digital inputs (24 V DC) and outputs (up to 230 V)  
Analogue inputs and outputs (0-10 V, 0/4-20 mA)  
External temperature measurement: all thermocouple types and Pt resistors (up to 4-wire)*

Main screen: Clear and intuitive.

Live visualisation of time-resolved recipe.

## Connections & Dimensions

- Metric specifications

## General technical data

<b>Dimensions (L x W x H)</b>	683 x 322 x 736 mm, incl. castors, approximate
<b>Connections</b>	
Heat-transfer fluid (feed and return)	½" BS female thread
Cooling water inlet	¾" BS female thread, with water filter
Cooling water outlet	¾" BS external thread
<b>Weight</b>	67 kg
<b>Colour</b>	RAL 7035
<b>Environment</b>	
Temperature range	5-40 °C
Relative humidity	35-85 % RH (non-condensing)
<b>Continuous noise level</b>	< 70 dB (A)
<b>Power supply</b>	200-240 V and 380-480 V, 50 and 60 Hz
<b>Ingress protection code</b>	IP44, IP54 optional
<b>Marking</b>	CE, UL-ready
