

## IWZ Consulting

### Benefit from decades of service Experiences from your industry

#### at a glance:

- ✓ personal consultations
- ✓ structuring of puzzling situations
- ✓ Networking the topics with „hidden obstacles“ and „hidden agendas“

#### in detail:

For more than 4 decades our customers are used to get informed from our employees also about not obvious facts according to specific requests. We are automatically drawing their attention to these circumstances.

These basic-characteristics are now extended for you by our business-area of Technical-Consulting . We are standing at your service to give advice and action in technical and logistical matters.

So you can

- structure your tasks
- synchronise your processes to others
- differentiate your market and segments

better than others.

We are standing side by side next to you. We help you plan your next steps.

We know that Consulting is a matter of trust. We have already earned that trust within all segments of international industry within the last 40 years.

We are looking forward to make an appointment for a first talk with you!
